Program

*The bus will take you from Halle to Gatersleben to the **Leibniz Institute of Plant Genetics and Crop Plant Research (IPK)** at 13:30. On the IPK research campus, the managing director Prof. Nicolaus von Wirén will welcome you with a short introduction on the tasks and work of the IPK. In two groups, you will explore two world-class research facilities: the Gatersleben Genebank, which is the largest genebank for crops in the EU, and the PhenoSphere, which is a unique in-door facility for non-destructive and highly-automated crop phenotyping. At 17:30 the bus will take you back to Halle. The estimated participation fee for the excursion is approximately 10 €.*

Time	Topic Speaker	Building Room
